

## ENERGETIC / POWER ENGINEERING

### STATORS / BIOMASS / FURNACE INCINERATOR CHAMBERS

The welded structure of the stator casing of electrical machine with the weight of ca. 52 tons

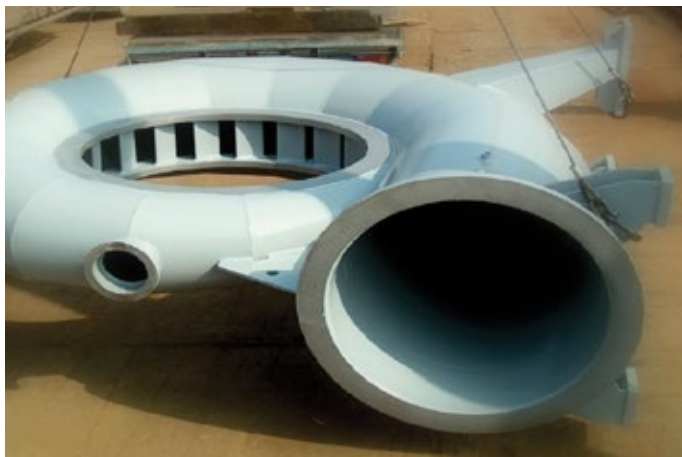

The welded structure of the stator casing of electrical machine with the weight of ca. 5 tons

## ENERGETIC / POWER ENGINEERING

Bearing cover (with the weight of ca. 2000 kg) of electrical machine rotor

Water turbine casing

Furnaces and large-dimension furnace exchangers with the weight of 10 - 20 t (or bigger)
